

DT4942 17 Piece Smart Phone Repair Kit with Bonus Microfiber Cleaning Cloth

Description:

The Apollo Tools 17 Piece Smart Phone Repair Kit has the essential tools to repair mobile devices, laptops, computers, wristwatches, eyeglasses and more. The screwdriver cap is free spinning to allow constant finger pressure to be applied while rotating. The precision bits are made of heat treated and chrome plated CRV steel to resist corrosion and are lightly magnetized so you never lose screws. The set includes pry bar and spudgers to safely open electronics cases, a suction cup to help remove the screen, a pin to remove SIM card and the precision bits needed for most electronics. This set includes a bonus microfiber cleaning cloth. The tools come in a handy compact case for easy storage.

Includes:

Precision Bit Driver
